Dear Executive Director Snow:

I urge you to ensure that CalFed puts forth and selects a new "Smart Alternative" based on conservation and restoration to provide reliable, high-quality water for California's people and wildlife. The "Smart Alternative" would:

- * ensure strong conservation programs and economic incentives to use our water more efficiently;
- * maximize water efficiency before even considering costly new dams and reservoirs or a Peripheral Canal;
- * restore and protect our watersheds and groundwater basins;
- * restore California's fish, birds, wetlands, rivers, delta and bays.

*I understand you usually

official record for your Draft Programmatic
Environmental Impact Report for State
ment.*

*This needs to get agribusinesses into water
conservation.*

Sincerely,

Joan Hebert

*Especially by
agribusiness!*
